# Call for projects overview

# About Scale AI

An investment  
and innovation hub  
focused on AI applied  
to supply chains

---

**\$500M** Investments  
committed

---

**100** Projects  
supported

---

**520** Partners  
involved

---

**\$5.2G** Direct value  
generated

# Goals for today's event

- 1 Officially launch call for projects
- 2 Introduce hospital funding program parameters
- 3 Answer your questions
- 4 Create collaboration opportunities between hospitals and AI experts
- 5 Meet our future partners

# Our ambition for this call for projects

- Help Canadian hospitals in leveraging AI to improve operations
- Support the development of AI products by Canadian providers
- Promote collaboration across hospitals and key AI players in Canada

# Context and background

- AI Ecosystem mobilization during COVID-19 crisis
- Funding of 8 hospital projects by Scale AI
- Additional \$10M from Pan-Canadian AI Strategy fund
- Consultation of previous COVID-19 project partners

# Key parameters

- Collaboration is core to projects
- Supply chain thematic
- Clear impact on quality of care
- Solution to be live at project's end
- Technology beneficial to other hospitals
- Strong buy-in for project within hospital

# Process and schedule
